

MONTICELLO FIELD OFFICE
STIPULATIONS FOR HARVEST OF WOODLAND PRODUCTS

A. SALE ADMINISTRATION

1. No refunds will be made on permits.
2. Firewood and Post Permits are good for 1 year.
3. Woodland permit and this stipulation page must be in possession during harvest and transport.
4. Harvest of fuelwood is restricted to pinyon pine and juniper only.
5. The tag should be clearly visible in the front windshield of vehicle before the wood is transported from the cutting site. The tag must be validated by completely removing the month and day from each tag for the date of the wood removal.

B. HARVEST STIPULATIONS

1. **NO OFF-ROAD TRAVEL ALLOWED**-Please stay on designated roads.
2. **NO CUTTING** is permitted within designated Wilderness Study Areas (WSAs).
3. Cutters will ensure they stay within BLM administrated lands only.
4. Only cut **dead standing and down trees** for firewood.
5. When standing trees are cut, all portions of a tree exceeding 3 inches in diameter will be harvested and removed from the site.
6. Green live trees may be cut for posts or poles if they are 10 inches in diameter at chest height or less.
7. All standing trees will be cut with a remaining stump height of 12 inches or less, on the up-hill side of trees. Lop and scatter all slash (tree limbs, tops, or un-removed debris left from cutting) 18 inches high or less from the ground.
8. **NO CUTTING** is permitted within developed camp sites or areas, or on banks of streams, rivers, lakes, ponds or wetland areas.
9. **NO CUTTING** of standing trees is allowed within 100 feet of any maintained road.
10. **DO NOT** cut trees marked with any color of paint, plastic ribbon, or signs.

C. SURFACE PROTECTION

1. The purchaser of this permit will immediately suspend and discontinue all operations under this permit upon notification from the Authorized Officer that such operations will cause unnecessary and undue soil compaction or soil erosion within the harvest area due to poor weather conditions. These suspensions are not subject to protest or appeal.
2. **DO NOT** remove or disturb any cultural site and/or artifacts-such act are prohibited by law.

D. WASTE DISPOSAL

Harvest sites shall be maintained in sanitary condition at all times; wasted materials at those sites shall be disposed of promptly in an appropriate waste disposal site. "Waste" means all discarded matter including human waste, trash, refuse, oil cans, petroleum products and equipment. **PACK IT IN-PACK IT OUT.**

E. FIRE CONTROL

1. During conditions of extreme fire danger, fuelwood harvest may be limited or suspended in specific areas, as determined by the Authorized Officer. This determination of extreme fire danger and limitation or suspension of the permit is not subject to protest or appeal.
2. The purchaser of this permit will do all within his/her capability to suppress any fire started in the vicinity of his/her operation area. Additionally, the purchaser will immediately notify the BLM about the fire.
3. The purchaser may be held liable for fire suppression costs incurred by BLM for any fire that starts as a result for the purchaser's harvesting operations.

F. PENALTY FOR DAMAGES

If, in the connection of operations authorized under this permit, the purchaser, drives off-road, damages or removes fuelwood or timber species other than those sold under the terms of this permit, the Authorized Officer may require the purchaser to pay \$275.00.

Wood Cannot be Sold.
The permittee and those accompanying him/her shall indemnify and hold the USDO I BLM harmless from any claims, loss, cost, injury expenses, attorney's fees, damages, or liability caused by or arising out of the exercise of this permit.

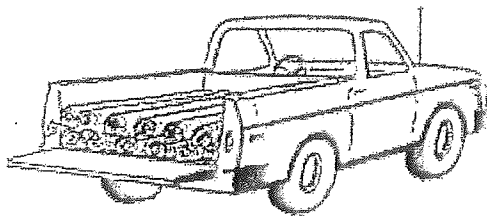

The permittee is authorized to cut and remove firewood, posts and poles or other special products, as indicated on the attached permit, from the cutting areas administered by the BLM Monticello Field Office. The permittee agrees to comply with the general stipulations stated on permit # _____ and the special provisions contained above.

MEASURING AND REMOVING FIREWOOD FROM THE FOREST

1/3 Cord (1/4 cord for short bed)

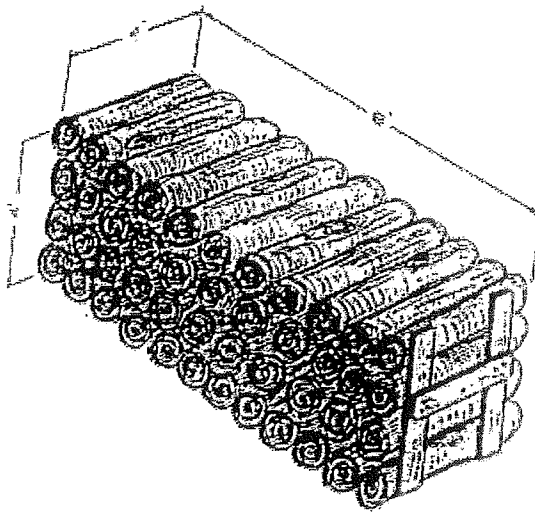

1/2 Cord (1/3 cord for short bed)

1 Cord (3/4 cord for short bed)

firewood is commonly measured in cords. A standard cord is the amount of tightly piled wood in a stack 4 feet wide by 4 feet high by 8 feet long.

The average half-ton pickup truck can carry a half cord of dry wood without overloading the vehicle.

One Cord (128 cubic ft.)
